Gifts for a more mindful Christmas

As a sustainable British skincare brand, we come across so many interesting independent businesses who are doing what they can to make the world a slightly better place. We wanted to round up some of the amazing brands and products we've spotted, for a little Christmas shopping inspiration. While we haven't tried them ourselves, we hope you agree they look pretty special.

So if you're looking for something a little different to buy for your loved ones (or yourself) this Christmas, then please read on. You'll have the added bonus of knowing that you are doing your part to support sustainable British brands.
